## A Lifelike Stone Camel.

One of the most curious rock forma-  
 tions in the world is to be seen in Ari-  
 zona. It is a short distance east of the  
 stage road between Tucson and Oracle  
 and stands on a knoll several feet above  
 the surrounding sand. When first seen,  
 the effect is startling, and the mind  
 has to get over a shock before the pecu-  
 liar object can be comprehended. It is  
 a most perfect representation of a camel  
 and is formed of one piece of granite.

This curiosity is of colossal size, but  
 perfectly proportioned. It is about 60  
 feet high and is very white and smooth.  
 There are very few fissures on the sur-  
 face, and they strangely are in the  
 proper places to form features. The  
 only real projection from the surface is  
 exactly placed for an eyebrow. The two  
 humps are plainly to be seen, and the  
 neck is curved beautifully.

The rock is really a solid piece rising  
 from the ground, but the effect of it is  
 produced by a plump of dark colored  
 brush that grows beside the stone. The  
 white stone shows plainly at both sides  
 of the brush, and the effect of the legs  
 is unmistakably produced.—Philadel-  
 phia Record.

## Carrying Good News.

During the siege of Vicksburg an im-  
 portant artillery position had been as-  
 signed to a battery commanded by Ma-  
 jor Schwartz, a German, attached to  
 General Grant's command. Late in the  
 day while Grant was in his tent receiv-  
 ing dispatches from the front a German  
 orderly made his appearance earnestly  
 inquiring for "Zinherl Grant." After  
 much parley his hearers, being convinced  
 that his business with the general was  
 important, admitted him to the latter's  
 tent, where he made the announcement.  
 "Schwartz's battery is took!" "Well,"  
 said the general calmly, "did you say  
 the guns?" "What?" shrieked the little  
 German, "spike don't guns? Don't low  
 guns? Vy, it would spike 'em!" "Well,  
 what did you do?" said Grant impatient-  
 ly. "Vy, we took 'em back again, by  
 tam!"—Life.

## Meanness in the Circle Drove.

Cases of meanness are not numerous  
 among the animals. A surprising one is  
 the innocent dove, which sometimes  
 hides under her wings food for which  
 she has no need simply to deprive her  
 companions. The sense of property is  
 manifested in the competition for prizes,  
 as in the struggle for the female or ter-  
 ritory, and in the possession of food.  
 The dog distinguishes the property of his master  
 and even discriminates between objects  
 belonging to different members of the  
 same family.—Current Literature.

## Youthful Condescension.

The Father (sorrowfully)—Your ab-  
 sorption in social playty grooves me. At  
 your age such a life had no fascinations  
 for me.

## The Son (condescendingly)—At my

age you probably lacked the fascinations  
 which I inherit from my mother's side  
 of the family.—Pittsburg Bulletin

## New York Versus Chicago

A funny outcropping of Chicago's am-  
 bition is the practice of the paper of al-  
 ways referring to this city as "New York,  
 N. Y." It just tickles a Chicago man to  
 pretend that no one would know which  
 New York was meant and the abbrevia-  
 tion of the state was given.—New  
 York Tribune

## HALE METHOD OF PAINLESS FILLING.

## NEW DEPARTURE IN DENTISTRY!

DR. PORTER HAS RETURNED for the purpose  
 of advertising the

## "Hale Method of Painless Filling."

Absolutely painless without Chloroform, Ether, Gas or Cocaine.

OFFICE IN SUNDERLAND'S BUILDING, - - - VIRGINIA ST., RENO

Here are a Few Testimonials from Citizens Who have Already Tried  
 the Method:

Dr. Porter—DEAR SIR:—It affords me pleasure to say that the Hale method  
 of painless filling opens a new era in the dental world. After having several  
 very sensitive cavities filled by you with gold and amalgam with gratifying  
 results, I am of the opinion that the method is far beyond competition.  
 PATRICK HENRY.

Dr. Porter—DEAR SIR:—In answer to your request for my candid opinion as  
 to the Hale method of painless filling, I beg to state that I went to one of Dr.  
 Leek's finest operators in San Francisco, and he filled several teeth for me with  
 more or less pain; but when he came to the one you have just filled, it was  
 simply impossible for me to endure the torture, consequently I asked him to  
 stop, which he did. I thought I would be obliged to have the tooth extracted.  
 I wish to state that in five minutes after you commenced to operate there was  
 positively no pain; it felt just as if you were cutting a piece of wood. I am so  
 highly pleased with the manner in which you filled the tooth that I feel it but  
 just to express my appreciation of the method. It is all you claim for it.  
 CHARLES HOPE.

Dr. Porter—DEAR SIR:—I have had teeth extracted before by so-called pain-  
 less methods, but you are the only operator who has extracted teeth for me  
 without pain. Your method of extracting surpasses any most sanguine expec-  
 tations.  
 MRS. H. PRENTISS.

Dr. Porter—DEAR SIR:—It gives me great pleasure to state that I am thor-  
 oughly convinced of the excellence of your method. I expected to suffer dread-  
 fully having the cavity filled, as it was the worst one I had to have done. In  
 about five minutes after you began to work on it I was satisfied that I would  
 not hurt, which it did not during the entire operation. The tooth you extracted  
 is one I have been dreading for eight years, and after consulting dentists in  
 Sacramento, who advised me not to have it removed, as the ordeal might prove  
 injurious to my health and also disfigure my face. You extracted the tooth  
 without a particle of pain, and I will have no further dread of the dental chair,  
 providing I can obtain the Hale Method.  
 MARY E. FLECKENSTEIN.

Dr. Porter—DEAR SIR:—After using Hale's Painless Method as administered  
 by you in the extraction of teeth, I can bear testimony that the results are satis-  
 factory, and that teeth can be extracted painless by said method.  
 Respectfully yours,  
 HENRY J. NEYLAND.

Dr. Porter—DEAR SIR:—I believe that the Hale Painless Method of filling is  
 destined to lead the world in its especial field of usefulness. I am particularly  
 impressed with it, owing to the fact that one does not lose consciousness while  
 having teeth filled, and at the same time does not suffer a particle of pain. You  
 are at liberty to refer any one who contemplates having sensitive teeth filled  
 to me.  
 JOHN SHERITT.

CONSTANTLY ON HAND.

As Memorial day is a holiday and printers, like ordinary mortals, desire to celebrate the day, no paper will be published from this office to-morrow morning

MEMORIAL DAY.

The custom of decorating the graves of the soldiers of the war, who have crossed the line from Time to Eternity, will be observed to-day in Reno as elsewhere throughout the land. The men who wore the blue and the men who wore the gray fraternize on this occasion as becomes American citizens and vie with each other in paying their annual tribute of respect to the memory of their departed comrades

Though the custom of strewing flowers on the graves of fallen braves was the inspiration of a southern lady, its observance is now general throughout the country, nor is it confined to the veterans of the war. Other societies than the G. A. R. have adopted it and the public generally observe it. It is a national and a state holiday, made so by the laws of congress and the state legislature, and it will doubtless be observed long after the veterans of the war have answered the last roll call here, and are summoned to General Headquarters above for promotion

ANOTHER TRANS-CONTINENTAL RAILROAD.

The *Railway Age* is authority for the statement that work will soon commence upon the extension of the Northwestern railroad from its present terminus at Casper, Wyoming, to Ogden, Utah. From this, as the main line, a branch will be built south to Rawlins, and another northwesterly to Lander

The *Ogden Standard* quotes from Denver papers to show that this means the establishment of another competitor for transcontinental traffic and it is the opinion of some persons that the new line will be the most formidable of all. The distance from Chicago to Ogden by way of the Union Pacific, is 1,523 miles. The *Standard* says from Chicago by the Northwestern to Casper, its present terminus, the distance is 1,102 miles and from Casper to Ogden by a practicable route is between 300 and 400 miles

If the Northwestern contemplates extending its line to the Pacific coast, it will doubtless make arrangements with the Air Line to secure its franchise through Nevada. This franchise was extended by the legislature last winter. The act provides that when the Utah and Nevada Air Line Company shall have constructed a first-class railroad of standard gauge through the counties of White Pine, Eureka, Lander, Churchill and Washoe, it shall be entitled to receive the bonds of said counties to the amount of \$3,000 per mile for each and every mile of main track completed in each of said counties

This bonus ought to be a sufficient inducement to the Northwestern to cooperate with the Air Line Company. It amounts in the aggregate to about \$1,250,000, which if it is estimated, would pay the expense of grading the road, building bridges, etc., through the state of Nevada

It is now almost certain that if the Air Line is built it will be from the east, not the west, as San Francisco shows no disposition to build in this direction, and as the Northwestern has a fully equipped line from Chicago to Wyoming, which it intends to extend to tidewater on the Pacific coast, its operations will be watched with considerable interest by the people of Nevada who desire another transcontinental line built across the state.

THE DIFFICULTY WITH THE GEARY ACT.

It is telegraphed from Washington that senators and representatives now in that city concur in the opinion that the chief difficulty with the Geary exclusion act is that there was not money enough appropriated to carry it into effect. All agree that as the law now stands congress will be compelled to appropriate sufficient funds to enforce it or become the laughing stock, not of the Chinese alone, but of the civilized world. To permit the law to become a dead letter will convince the Chinese that the Six Companies are more powerful than the United States government

It is reported that the Chinese are coming into the country daily by way of Canada and British Columbia. The enforcement of the Geary act would suppress this illegal entry altogether, as the registration prescribed by the act, if carried into effect, would enable the revenue officers and United States marshals to distinguish the Chinese lawfully in the United States from those who come into the country surreptitiously. As it now is there is no way, except by the testimony of white persons, by which officers can determine whether an unregistered Chinese was in the United States prior to May 5th, or unlawfully entered the country since that time. The act ought to be enforced, without waiting for further action on the part of congress, to the extent of giving every Chinese lawfully in the country on the 5th day of May opportunity to prove the fact and get a certificate of registration. It would not require a great amount of money to do that and it would prevent the smuggling of Chinese into the country as those who can prove that they were residents on May 5th would not willingly avail themselves of an opportunity to do so

THE HALL-SLAVIN FIGHT.

Strong Indications of a Fake Appearant.

NATIONAL BANKS CLOSED.

The Financial Condition of the U. S. Treasury.

SLAVIN KNOCKED OUT.

Indications of a "Fake" Fight Apparent.

Special to the JOURNAL.]

LONDON, May 29.—Jim Hall met Frank Slavin at the National Sporting club to-night for \$2,500 a side and a purse of \$8,500 and knocked him out in the seventh round. The fight was a disappointment to the spectators.

Slavin was favorite in the betting up to the opening of the first round, but from the beginning he made a poor showing. He was completely outgeneraled at every point by Hall, and was unable to offer enough resistance to make the contest exciting.

When time was called Slavin's face wore a dazed expression. He lurched heavily twice as he left his corner, and was generally unsteady in his gait. After sparring for a few seconds he walked directly up to Hall, and was received with a staggering right-hander that almost floored him. At the end of the round he went to his corner amid the hissing and groaning of the spectators.

In the second round he showed no improvement.

In the middle of the third round Hall landed both right and left on his opponent's head, and then gave him a stinger on the jaw and stood away. The men then fooled about the ring, missing repeatedly when they came to close quarters. At the end the referee warned them that if they did not fight there would be no purse.

In the fourth not one telling blow was struck, and the fooling of the previous round was repeated until the spectators hissed.

The fifth was better, and ended with Slavin going down with a right-hander in the jaw.

Nothing was accomplished in the sixth.

The seventh round hardly opened before Hall floored Slavin with his left. Slavin was soon up, but, hearing somebody call time, turned toward his corner. Hall instantly landed his right on Slavin's jaw and sent him down for good. The spectators hooted Slavin as he was carried to his corner.

Disappointment and dissatisfaction with the fight were generally expressed.

TWO NATIONAL BANKS

Closed by Order of the Comptroller of Currency.

Special to the JOURNAL.]

WASHINGTON, May 29.—The National Bank of North Dakota at Fargo, N. D., and the First National Bank of Lakota at Lakota, N. D., closed to-day on orders issued by the comptroller of the currency. Both were organized by E. Ashley Mears, who was also organizer of other national banks and many state banks and other institutions.

His plan, says the comptroller, appears to have been to make loans to various institutions, subscribing to the stock of two national banks in an amount which in some cases exceeds the amount of stock subscribed to by them. The management of the Fargo bank was ostensibly conducted by a board of five directors, consisting most of the time of E. Ashley Mears, Mrs. M. B. Mears, Mrs. D. C. Mears and Miss L. D. Mears, respectively wife, mother and sister of the president, and one other director who was not a member of the Mears family. This bank owes the treasurer of the United States about \$14,000 for moneys expended by the treasurer in the redemption of the circulating notes of the bank coming into the treasury for redemption and which bank has failed to reimburse to the treasurer.

The comptroller says he ordered Examiners Brush and Diamond to close these banks because of repeated violations of the law on the part of the management and the refusal to pay assessments, thereby producing a condition rendering them insolvent and dangerous as banks of deposit.

A Pathetic Letter.

Special to the JOURNAL.]

JACKSONVILLE, Ill., May 29.—Rev. W. H. Wilburn, the blind chaplain, furnished the press a pathetic letter in which he states his son Fletcher, who committed suicide, was finely educated and furnished every opportunity. Dissipated habits did away with all. For years his father cheerfully furnished him with all means he asked for, though often at great personal sacrifice. He paid his son's expenses at a gold cure institute and has done all he could to get him a government position, but the young man fell and lost all and the father could do more for him.

Seventy-Four Men Drowned.

Special to the JOURNAL.]

LONDON, May 29.—During the fearful cyclone which has been raging in the bay of Bengal the ship Germania was lost and seventy-four men lost their lives.

The Gold Shipments.

Special to the JOURNAL.]

WASHINGTON, May 29.—Since January 1st \$80,000,000 in gold has been exported to Europe. The export movement instead of abating seems to have received a fresh impetus. Most of this gold was taken from the United States treasury and practically all that is now expected comes from the same source. In that time the treasury department sustained a loss of \$25,354,243, the net total gold in the treasury on January 1st having been \$121,266,662, while to-day it is only \$95,912,419. With the gold engaged for shipment on Tuesday and Wednesday it will be about \$93,000,000, the lowest figure reached since the resumption of specie payments. In addition there are reports that more will go out next Saturday, sufficient, it is said, to reduce the gold holdings to \$90,000,000. Despite these heavy shipments the treasury officials express the greatest confidence in the ability of the treasury to restore the gold balance. They point to the fact that there is a gradual and healthy inflow of gold from natural causes to the treasury which is only temporarily checked by the large amounts taken for export.

Cessation of gold exports in large amounts is looked for by July 1st, as it is understood the Austrian demand is well now supplied.

A peculiar and encouraging feature of the decrease of gold is that a corresponding increase is shown in the net treasury balance to-day of \$35,897,893, or nearly a million dollars greater than on March 7th, when Secretary Carlisle took official charge of the treasury department.

A Railroad Accident.

Special to the JOURNAL.]

AUSTIN, Tex., May 29.—A suburban train ran into a passenger train on the Texas Pacific road last night. Charles Link, the fireman, and Francisco Salio a passenger, were killed, and Willie Brooks, Engineer Piper, Tom Holbrook, Mrs. L. N. Goldbeck, Jim Bell, Miss Emma George, Maude Misbal, Miss C. R. Taylor, L. N. Goldbeck and W. P. Mabson were injured. Some of the latter are very badly hurt.

Republican Headquarters.

New York, May 29.—R. O. Kerns, a member of the national Republican committee here, to-day said that Joseph H. Manley of Maine, secretary of the committee, has been empowered to open Republican headquarters in New York next September.

Weather Forecast.

SAN FRANCISCO, May 29.—The forecast for Nevada is fair weather and warmer.

A GREAT NEWSPAPER.

A special edition of the San Francisco *Morning Call* issued last Sunday is beyond question as complete and handsome a newspaper as is published. It contains the story of the *Call* from the date of its birth to the present time and a fac simile of the first number, which was published by an association of printers, December 1, 1856, and is not much larger than a sheet of foolscap. The *Call* is now printed on a giant quadruple press, which turns out papers, printed, pasted and folded at the rate of 50,000 an hour.

The *Call* has championed the cause of the people against the corrupt rings which have infested San Francisco and it has been a consistent advocate of clean city government. It has exposed the bootlickers, whether they called themselves Republicans or Democrats, and it is the avowed enemy of bossism in politics.

See the World's Fair for Fifteen Cents.

Upon receipt of your address, and fifteen cents in postage stamps, we will mail you prepaid our SOUVENIR PORTFOLIO OF THE WORLD'S COLUMBIAN EXPOSITION, the regular price is fifty cents but as we want you to have one, we make the price nominal. Ayer's Pills

Are compounded with the view to general usefulness and adaptability. They are composed of the purest vegetable aperients. Their delicate sugar-coating, which readily dissolves in the stomach, preserves their full medicinal value and makes them easy to take, either by old or young. For constipation, dyspepsia, biliousness, sick headache, and the common derangements of the *Stomach, Liver, and Bowels*; also, to check colds and fevers, Ayer's Pills

Are the Best

Unlike other cathartics, the effect of Ayer's Pills is to *strengthen* the excretory organs and restore to them their regular and natural action. Doctors everywhere prescribe them. In spite of immense competition, they have always maintained their popularity as a *family medicine*, being in greater demand now than ever before. They are put up both in vials and boxes, and whether for home use or travel, Ayer's Pills are preferable to any other. Have you ever tried them?

Ayer's Pills

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.

Sold by all Druggists.

Every Dose Effective

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

ARID LANDS.

The Results of Irrigation in the Western States.

A census bulletin recently issued gives the result of irrigation in the arid region.

The *Ogden Standard* in commenting on the subject of the bulletin says:

The number of acres of this land which has been reclaimed from barrenness when the census was taken was 3,631,381. Over one-half of it was in the States of California and Colorado; the great bulk of the remainder was in the Rocky mountain states. All that lay outside of them was 66,965 acres in the Dakotas, Nebraska, Kansas and Texas.

The irrigated land was reclaimed from waste said to contain 883,312,000 acres, so that the portions reclaimed amounted to less than one-half of one per cent of the whole, and there is plenty of opportunity for the reclaimers to continue their operations. The figures of the census show that for every acre irrigated there are still 247 that have not been utilized in this manner. A good deal of it, however, never can be, for in the figures given the land occupied by the great mountains is included. The reclaimable arid land is estimated to contain 542,000,000 acres. Before being irrigated that portion of this arid land which was reclaimed was utterly worthless, and by many people it was believed not to be susceptible of being utilized for cultivation. Of course they were mistaken, as some of these irrigated lands are among the most valuable in the United States. The irrigated land in Wyoming is now valued at \$31 40 per acre. The value of that in California is estimated at \$150 per acre, while the average value of the whole reclaimed area is \$38 28 per acre.

Annual products of this reclaimed area were valued at \$8 25 per acre in Wyoming and \$19 per acre in California. The average first cost of bringing water to the arid land was \$8 15 per acre, and the average value of the water rights created by the process was \$26 per acre. The annual cost in maintaining the irrigating canals is \$1 07 per acre. The total cost of reclaiming the whole area brought under cultivation was \$26,611,000. The value of the land thus reclaimed was estimated at \$94,611,000. Great ditch enterprises are now under construction in Colorado, Arizona, Idaho and Washington, and the work of reclamation will be materially advanced during the present year.

All Free.

Those who have used Dr. Kings New Discovery know its value, and those who have not, have now the opportunity to try it free. Call on the advertised Druggist and get a Trial Bottle, Free. Send your name to H. E. Bucklen & Co. Chicago and get a box of Dr. King's New Life Pills Free, as well as a copy of Guide to Health and Household instructor, Free. All of which is guaranteed to do you good and cost you nothing at S. J. Hodgkinson's Drugstore.

## BREVITIES.

Hair cutting 25 cents at Colemans. \*  
Dr. Porter fills teeth without pain. \*  
Garden tools and garden hose at Lange & Schmitt's. \*  
The Dayton mill has been shut down for an indefinite period.

At Coleman's barber shop, hair cutting 25 cents, Monarch saloon. \*

Crockery and glassware at San Francisco prices at Lange & Schmitt's. \*

Mrs. N. B. Thorpe of Hawthorne passed through to San Francisco last evening.

H. B. Rule and wife paid Carson a visit Sunday, returning on the evening train.

It is estimated that over 147,000 people visited the world's fair grounds yesterday.

A dose of Ayer's Sarsaparilla each morning, during vacation, will greatly benefit you.

It is understood that a "go" is being arranged between Frank Purcell and George Allen.

Dr. Porter extracts teeth without pain. Office, Sunderland building, Virginia street.

Hon. A. E. Cheney, who held court in Virginia city yesterday, returned on last evening's express.

The New England dinner at the opera-house will be ready at any time after 12 o'clock to-day.

A hacking cough is a weariness to the flesh; but Ayer's Cherry Pectoral is a cure that never fails.

George Kerth yesterday received another carload of that delightful beverage Anheuser-Busch beer.

A. C. Bragg of the Gazette returned from San Francisco last evening. He is looking in good health.

Captain McInnis arrived from Carson last evening. He says orders were issued yesterday to discharge forty-two persons at the mint.

Postmaster Krause and Deputy Postmaster Malotte went to Carson yesterday in obedience to subpoenas from the United States district court.

Improper and deficient care of the scalp will cause grayness of the hair and baldness. Escape both by the use of that reliable specific Hall's Hair Renewer.

Eight two story brick buildings are going up in Reno. The Riverside burg appears to be the only prosperous and growing town in Nevada.—Carson Tribune.

D. C. Wheeler, George Alt, H. P. Brown, J. J. Becker, O. C. Ross, B. M. Coffin and D. W. Beaton went to Carson yesterday to serve as United States grand jurors.

Justice Bigelow of the supreme court arrived last night on his way to the world's fair. He goes west to San Francisco and will go east by the Northern Pacific.

J. H. McBride, roadmaster on the C. & C. and family passed through to San Francisco Sunday evening. Mrs. McBride is quite ill and goes to the city for medical treatment.

Parties arriving from Carson last evening say that bets of two to one are freely offered at the capital that ex-Governor Jewett Adams will be appointed superintendent of the mint.

Constable Cozzens of Lovelock and Deputy United States Marshal Golden of Wadsworth went to Carson yesterday, where they had been subpoenaed as witnesses before the United States grand jury.

Thomas White was arrested at Winnemucca, where he was identified as the individual who passed a forged check on S. Armanco of the Arcade saloon. Sheriff Caughlin left yesterday to bring White here for trial.

The Riverside club expects to have its new building completed the early part of next month. The tennis grounds have already been laid out and put in good condition and lovers of that sport can be seen playing the game each evening.

The tunnel on the Contact claim at Silver City has been jumped by the owners of the Red Jacket mine and everybody in the vicinity carries a gun. Justice of the Peace Walker made a cleanup of \$500 last week in his mine and he has an immense body of ore in sight.

Hon. William Thompson has applied for a patent for a hammer which will fill a long-felt want. He says the invention is not the result of meditation; it came as an inspiration while he was in a state of desperation caused by the hammer he was using flying off the handle.

William E. Barney has been unanimously elected principal of the Silver City school for another year. Mr. Barney is a graduate of the State university and a young man of exemplary habits, and the fact that he has been unanimously elected by the school board proves that he gives entire satisfaction as a teacher.

Edgar Barr came in from Loyalton, in Sierra Valley, last Sunday, where he is building a saw mill. He says there are snow drifts four feet deep along the road in the mountains. He commenced his mill last February and expects to have it running in a few weeks with a capacity of 15,000 feet a day. He intends to bring a part of his clear lumber to Reno.

## FLORISTON NOTES.

Prospects of a Lively Season—Damage by High Water—Good Fishing.

FLORISTON, Cal., May 28, 1893.  
From the present outlook this burg will be very lively this season. Already the sound of the saw and hammer can be heard, while the employment of many laborers indicates that the mill will soon be run to its full capacity.

Probably the first logging with an engine that has ever been done on this river will be here. An 80-horse power donkey engine has been ordered to snake logs from the most abrupt mountain sides to the chute on the top of the mountain.

The mill will cut snowshed timber for the Southern Pacific Company, in addition to the manufacture of lumber for market. Some improvement is talked of to increase the cutting capacity of the mill to 40,000 feet per day.

E. G. Sukeforth will be in charge of the mill, which has been leased by Mr. Sukeforth and S. H. Simonds.

Mr. Bixby, an old and experienced logger from the Redwoods and Puget sound country, will have charge of the logging camp.

The high waters of the Truckee washed out quite a piece of land from the island between the National ice pond and the main channel of the river, filling up one of the ponds with debris, besides doing other damage which will most likely give employment to laborers this summer. Other damage was done to the ice stored in their house, as the water stood some ten or twelve inches deep on the floor of the building, while at the Rocky Run icehouse the water flooded the floor to a depth of some two feet or more, melting out the ice in the bottom tier so that it crushed down, almost knocking out one end of the building.

The cool weather of the past ten days has caused the river to fall several feet, but should it turn suddenly warm and continue so for a week or so we can look for very high water again, as the mountains are still covered with snow, particularly where it has drifted to great depths. The gates are open at Tahoe.

The drive on the Little Truckee was a short one, lasting but ten days. As the water was very high and the river fell quite suddenly it left many of the logs high up on the embankments and rocks, where a great many remain. Two men barely escaped drowning on the drive. F. J. Muldoon saved one of the men, who was unconscious when taken ashore.

This postoffice has been abolished as a money order office by the department, owing to a lack of patronage, as Wells, Fargo & Co.'s orders are preferred.

John F. Kidder of Salt Lake, owner of the sawmill here, has returned home.

John Hamilton of Nevada city will stand at the throttle this season at the mill, while Ed Reeves will superintend the sawing.

The People's Ice Company is shipping ice at present.

Fishing has been unusually good this season. A couple of fishermen realized over \$100 each last month, as they have a ready market for their catches at 25 cents per pound. Heretofore 15 cents was considered fair. Angle worms are used for bait. From the numerous insects and flies that have made their appearance within the last few days the fish will feed nearer the top waters, when we expect the fishing will be a pleasure. At present they are feeding at the bottom of the river.

Much interest is manifested in the law suit now before the Nevada county court, involving the breach of contract between the Tahoe and Union ice companies for the sale of \$50,000 damages. Nearly all the old ice hands are in attendance as witnesses.

Mrs. Geo. Christensen is visiting here for a few days.

The freight house of the S. P. Co. has been remodeled and its appearance greatly improved.

Many of the old faces that were in camp last year are again among us.

Some changes of section foremen will take place on the 1st of July. Mike Flaherty, who has been located at Boca for years, will be transferred to Stockton, and the foremen at Truckee and Rocklin will exchange places. John Christensen of Camp 21 will be transferred to Boca and will be succeeded by a man from the west.

Rumor says there is likely to be a change in our section, but whether it will be another case of "relief" or an increase of force is uncertain. However, Bill, we wish you every success; female immigration is what we need here.

The snow has all disappeared from along the river, wild flowers of variegated hues and the green mantle of spring have supplanted snow drifts. B.

## Advertised Letters.

## ABSOLUTELY PURE

## WHAT A FORMER NEVADAN WRITES

This State Preferable to Other Places on the Coast.

Colonel R. H. Lindsay writes from Seattle to M. E. Ward complimenting him upon the completion of the Bank of Nevada building says:  
"There is nothing transpiring in Nevada that does not interest me deeply. Since leaving there I have both seen and learned much of the business outlook of this section particularly on this coast. The citizens of Nevada have nothing whatever to fear and no cause to envy other portions of the country. The farmers of Nevada are more comfortably fixed and have better ranches and better prospects for the future than any I know of. It would pay the community there to send some of the local growers on a tour of inspection. I can assure you he would return eager to stand the art of 'booming'. Nevadans should take a few lessons from them. You have the resources to hold the boom when it once strikes you, but you seem lax in casting the bait to catch the 'boom'."

## WILL NOT PARTICIPATE.

Resolutions to That Effect Passed by the Company C.

At a special meeting held by the Reno guard the following resolutions were adopted:

ARMORY COMPANY C, N. N. G.,  
RENO, NEV., May 29, 1893.

WHEREAS, For the last three years our company has been invited to participate in Memorial day exercises, and in every case the escort duty to the Grand Army of the Republic has been given to the university cadets, our company being put at the end of the line; we being a duly commissioned company by the governor of this state, have rank and precedence before all organizations in this city, and not receiving the credit and courtesy due a military organization, and having practiced forbearance for the past three years, therefore, be it  
Resolved, That we will not participate in Memorial day exercises on May 30, 1893.

Resolved, That this be published in the daily press of our city.

Resolved, That a copy of this be sent to the committee of arrangements.

## CARSON MINT.

Over Forty Employees to be Discharged.

The Carson Tribune of yesterday says: Superintendent T. R. Hofer received orders from the secretary of the treasury this morning to suspend coinage entirely at the mint on June 1st and discontinue with the entire coinage force (22); also the record clerk, abstract clerk and register of deposits in the superintendent's department; four employees in the minter and refiner's department; three in the assay department, and four in the general department, and reduce the pay of the watchman to \$3 a day.

Gold and silver will be received and paid for as heretofore, and parting and refining of gold and silver bars continued.

Out of a force of sixty-four employees only about twenty will remain. This is a hard blow to Carson, as it means the taking out of circulation in Carson of at least \$5,000 a month, and all in the interest, adds the Tribune ironically, of "the free and unlimited coinage of silver."

The university ball grounds have been scraped and everything placed in readiness for the game of baseball this afternoon between the university and town teams. A cordial invitation is extended to all to witness the game and special arrangements have been made for providing seats for ladies. An interesting game is assured and all who enjoy the sport should attend. Game will be called at 2 P. M.

C. A. Jones, A. C. Helmold, C. Nash, W. A. Moore, Dr. E. C. Phelps and O. Gottschalk started for Carson Sunday afternoon on their bicycles. Upon arriving at Steamboat Dr. Phelps concluded he would go no farther, and returned, but the balance of the young men pushed on to Carson, arriving there about 6:30. They returned home on yesterday's local.

Richard A. Mesick, for many years a leading lawyer on the Comstock, died in San Francisco last week of chronic bronchitis. He was a native of New York, aged 60 years, and came to this coast in 1840. He was associated with Justice Field in the practice of law at Marysville for many years. He came to Nevada in 1863 and was elected judge of the supreme court, but as the constitution was defeated by the people the state government was not organized and he did not serve. He was counsel for the Bonanza firm and subsequently for Mrs. Fair.

Sunday afternoon a lady who happened to pass that way noticed smoke issuing from underneath the sidewalk in front of the McIntosh barn, near the corner of Balfour and Fourth streets, now owned by George J. Smith, who is at the world's fair. She gave the alarm, and a neighbor turned on a stream of water through a garden hose and prevented another fire.

Dr. PRICE'S  
Cream Baking Powder.

## L. O. O. F. Memorial Exercises.

The following is the order of exercises and line of march of the Independent Order of Odd Fellows on Memorial day:

The members of the order will meet at the hall of Truckee lodge, No. 14, I. O. O. F., at 2 P. M., and at 2:15 will form in line in front of the hall in the following order:

Hastings' Cornet Band.

H. B. Rule, N. G.; R. S. Osburn, V. G.; R. C. Leeper, chaplain; J. V. Peers, marshal; B. F. Curlier, orator.

Members of the order.

N. V. and V. G. of Nevada.

Rebekah Degree Lodge No. 7.

Daughters of Rebekah.

Citizens.

The line will march north on Sierra street to Fourth, west on Fourth street to the Masonic and I. O. O. F. cemetery, where the following exercises will be held:

Music Band

Prayer Chaplain

Vocal music Choir

Oration B. F. Curlier

Music by Band

Decoration of graves. Band

After which the line will be reformed and countermarch on Sierra and disband.

J. V. PEERS, Marshal.

Fourth of July Meeting.

The general committee of arrangements for the Fourth of July celebration held a meeting in Judge Cheney's chambers at the court-house last evening, and received reports from several sub-committees.

The music committee reported having engaged the famous Presidio band for service on that day, as also the Silver State band of Virginia, the two Reno bands and the Truckee Drum Corps, composed of little girls.

The committee on invitations reported having received a polite acceptance from the Chief Executive of the state and staff, and Battery A and Company A, Nevada National Guard, of Virginia, to participate in the exercises.

The committee on finance reported having \$1,350 subscribed, with very favorable prospects.

The transportation committee reported that they had arranged for the following rates: A one-half rate on the S. P. system, and free transportation for all musicians; less than one-half on the V. & T. and a \$5 round trip rate from Eureka to Palisade and return.

The committee on parade reported progress.

Another meeting of the committee will be held on Monday night next.

All Credit to the Cadets.

The university correspondent of the Carson Tribune has this: "The students as well as the professors of the university are delighted to show every one a live contradiction of the report regarding drunkenness among the university students. During the entire encampment not one cadet was placed in the guardhouse. The boys had an excellent opportunity to procure liquor, as they were at camp only from 6 P. M. to 6 A. M. The boys not only abstained from intoxicating liquor, but willingly did guard duty on the coldest nights. None of the professors were shirked, although the professors were as severe as usual. Altogether, the cadets showed their great respect for Lieutenant Neall, proved themselves to be gentlemen, and are worthy of all the praise and help of Nevadans."

Richard A. Mesick, for many years a leading lawyer on the Comstock, died in San Francisco last week of chronic bronchitis. He was a native of New York, aged 60 years, and came to this coast in 1840. He was associated with Justice Field in the practice of law at Marysville for many years. He came to Nevada in 1863 and was elected judge of the supreme court, but as the constitution was defeated by the people the state government was not organized and he did not serve. He was counsel for the Bonanza firm and subsequently for Mrs. Fair.

Sunday afternoon a lady who happened to pass that way noticed smoke issuing from underneath the sidewalk in front of the McIntosh barn, near the corner of Balfour and Fourth streets, now owned by George J. Smith, who is at the world's fair. She gave the alarm, and a neighbor turned on a stream of water through a garden hose and prevented another fire.

A Weak Digestion

strange as it may seem, is caused from a lack of that which is never exactly digested—fat. The greatest fact in connection with

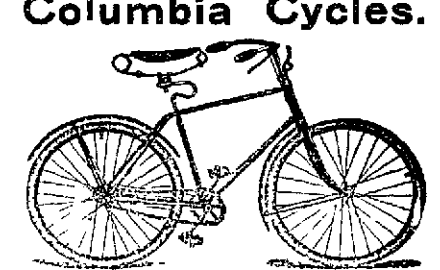

Scott's Emulsion

appears at this point—it is partly digested fat—and the most weakened digestion is quickly strengthened by it.

The only possible help in Consumption is the arrest of waste and renewal of new, healthy tissue. Scott's Emulsion has done wonders in Consumption just this way.

Prepared by Scott & Bowne, N. Y. All druggists.
